The men had converted a number of semi-automatic Cobray 9mm pistols (MAC 10) into automatic operation.

A Houston, Texas police officer made a traffic stop and was critically wounded, shot four or five times by the driver. The suspect got away and later, the suspect attempted a robbery. A trooper approached the suspect's car and was met with assault weapon fire. After abandoning his car, the suspect continued shooting at the pursuing officers and a gun battle ensued. The suspect was clutching a MAC 11 when he was killed. A search of his vehicle disclosed an AK-47.

Questions and Answers About Semi-Automatic Assault Weapons

What are semi-automatic assault weapons?

As defined in the Senate Crime Bill and in legislation pending in the House of Representatives, assault weapons are large capacity, semi-automatic firearms designed and configured for rapid fire, combat use (the Street Sweeper/Striker 12 shotguns have a wind-up drum). Most are patterned after machine guns used by military forces. They have distinct features which separate them from sporting firearms.

Many are banned from being imported into the United States, but all can be legally manufactured in this country. Passing assault weapons legislation removes these guns from circulation.

Why ban semi-automatic assault weapons?

Assault weapons make up only 1% of the guns in circulation in the United States. They account for up to 8% of the guns traced by law enforcement officials in the investigation of criminal activity. They are preferred by criminals over law abiding citizens 8 to 1. A number of these guns rank in the top 10 of all guns traced in relation to crime.

The way to show that we are serious about violent crime is to ban assault weapons. We are not being tough on gangsters if we allow open access to gangster weapons. Passing assault weapons legislation puts an end to an arms race on our streets.

Some people say semi-automatic assault weapons are just different looking versions of sporting firearms?

Some people might try to tell us that a diesel locomotive is like a family sedan because they have internal combustion engines. Assault weapons were designed for rapid fire, close quarter shooting at human beings. That is why they were put together the way they were. You will not find these guns in a duck blind or at the Olympics. They are mass produced mayhem.

Can't conventional sporting firearms be fitted with large magazines?

The legislation now pending in Congress bans ammunition magazines with a capacity greater than 10 rounds.

If someone crafts an illegal magazine, we can prosecute that person. Right now factories legally turn out such magazines and distribute them by the truckload.

Don't some gun owners say that this ban will lead to a ban of their semiautomatic sporting firearms?

The legislation pending in Congress specifically exempts nearly 700 conventional sporting firearms from its provisions. This legislation doesn't threaten the law abiding gun owners; it protects them and protects those who own no guns at all.

Will banning these firearms have an impact on crime?

Yes, it will. These guns help the criminals who have them to commit their crimes, adding to the carnage. They embolden the crook. Access to them shifts the balance of power to the lawless.

It is also a matter of principle that we ban these semi-automatic assault weapons. For people who say they are serious about addressing violent crime, it is time to vote seriously about the firearms criminals prefer.

The AR-15 comes equipped with a 5-round magazine. How can you classify this firearm as a rapid fire assault weapon?

Any weapon that takes a detachable magazine will hold a magazine of a larger capacity. Large capacity magazines of up to 150 rounds are available in unknown quantities for all of the firearms identified in this legislation, except the Street Sweeper. However, twenty and fifty-round magazines are readily available for use with these firearms.
